

Grain Size Analysis Report

Date:	2026-06-03
User:	—
Sample ID:	—
Test Details:	—

Summary

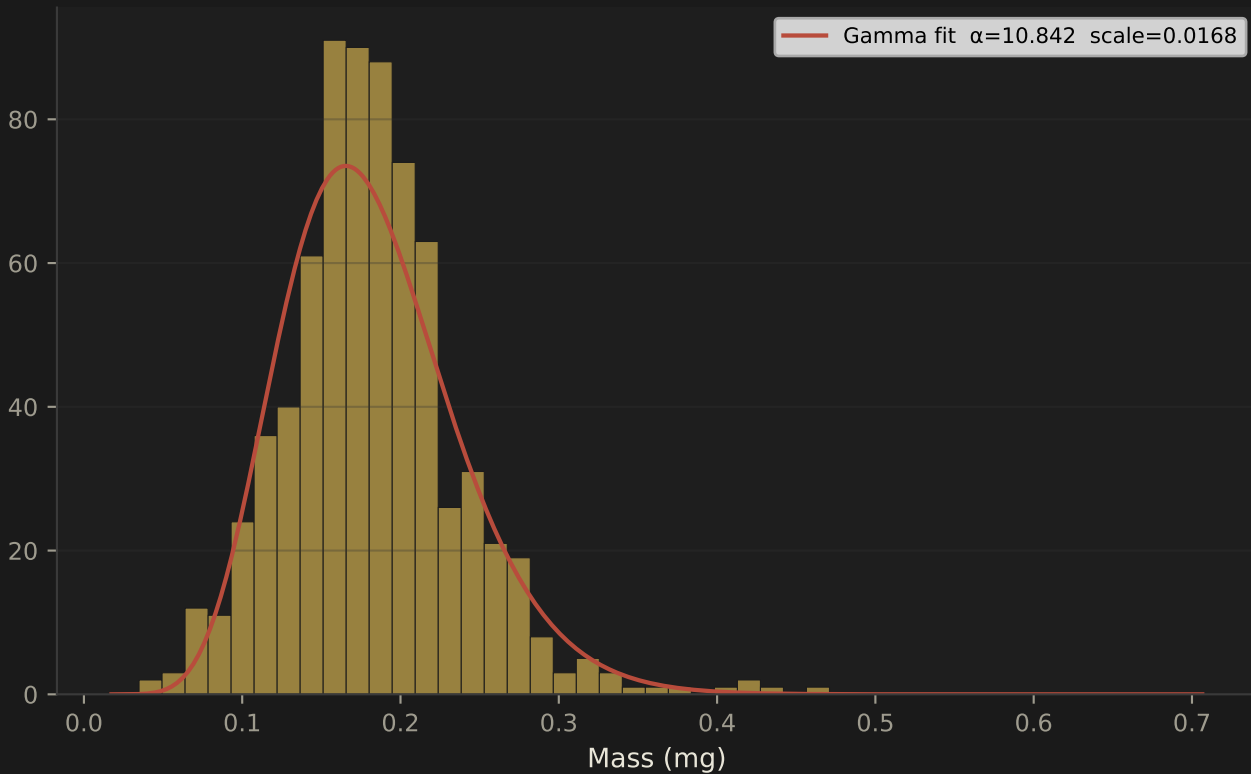

Analysis of image 'Grains - test 13May26.jpg'. 719 grains detected within size limits (0.5–1.0 mm). Mean average diameter: 0.648 mm. Mean sphericalness: 0.82. Estimated total mass: 131.0241 mg.
